Independence Energy announces new chief operating officer

TAMPA, Fla. – Independence Energy Group (IEG), a Florida company engaged in all aspects of the alternative energy industry, announced today that it has named Kevin Endres chief operating officer. Endres, who has significant experience in agro-industrial ethanol plant management both domestically and internationally, will be responsible for senior operational leadership at IEG.

In addition to his responsibilities for IEG, Endres is chief executive officer of Port Sutton EnviroFuels, the ethanol plant slated for construction in Tampa.

Prior to joining IEG, Endres was chief operating officer of United States EnviroFuels where he was responsible for the operational, technical and financial coordination of projects.

“Having served a lead role in the design, construction, commissioning, startup and operation of numerous agro-industrial plants, Kevin possesses a tremendous amount of professional experience which will prove to make him an asset to IEG,” says Blake Casper, CEO of IEG.

Before joining U.S. EnviroFuels, Endres worked for Delta-T Corporation, a premier fuel and potable alcohol designer and constructor, as head of the technical services division; served as general manager of ACE Ethanol returning it to profitability; and was head of design and development as well as engineering manager for Arkel Sugar, a Louisiana-based, designer and builder of sugar ethanol and co-generating plants.

South African born, Endres earned his Bachelor of Science degrees in chemical engineering from the Durban Institute of Technology and analytical chemistry from the Vaal University of Technology. Endres is currently working on his master’s degree in business administration at California Coast University.

About Independence Energy Group: Independence Energy Group (IEG) is a Florida company engaged in all aspects of the alternative energy industry. The daily process of making the United States less dependent upon foreign crude oil is the corner stone of their name and mandate. Independence Energy Group has positioned itself to be an active investor, manufacturer, wholesaler and marketer of effective alternative energy products and services in the State of Florida and across the United States.
